Just looking to have a quick call about:

- Long term strategy – what does it consist of and when?
- NDT backfilling vs data support person (Elizabeth Fagen)
- Trend Lines through AC EUL
- EUL Data Flow
- What can be leveraged through with this response?

Any time after 1215 mtn would work for me. We have the EUL call at 1130 and sometimes that is dragged on for 45min.

Thanks,

Data Team poster child
